

EMPLOYMENT PATHWAY TO CONSTRUCTION (EPCO)

The EPCO program provides a comprehensive training and employment pathway for newcomers interested in the construction industry.

Key components include:

- **Employment Counseling:** One-on-one career planning, resume building, interview preparation, and job search strategies tailored for the construction sector.
- **Employment Workshops:** A structured program covering essential construction skills, workplace safety certifications, and job search training.
- **Networking Events:** Opportunities to connect with potential employers, industry associations, and professionals.
- **Resume Screening:** Personalized resume development and coaching for job applications.
- **Work Experience Placements:** job placements with partner employers to help participants gain practical experience.

Target Group

- Newcomers to Canada who have experience in trades or construction or are interested in entering the construction industry.
